

Pex sees our success as dependent on the quality of the service we deliver. Creating a rewarding, challenging and safe workplace for all our people is part of Pex Industries' core values and one of its highest priorities. Our commitment to safety, the environment and the overall community is at the core of our Mission Statement.

Community

Pex is committed to supporting the local communities in which we work, fostering mutually beneficial relationships.

Giving back to the community in which we work is not only provided by the project undertaken, but where we work.

We work to improve the skills and practices of local subcontractors, conducting training sessions outlining best practices.

Commitment to informing local communities of works in their neighbourhood is done through planned and ad-hoc communication.

Safety

The safety of our employees, subcontractors and the public is key to our core values. Pex operates a full range of safety measures to ensure the safety of all.

We encourage group innovation, within a well defined framework to ensure safety. All employees of Pex

Pex only works with contractors who have appropriate certification of management systems to Australian

AS/NZS 4801:2001 Occupational Health and Management Systems

AS/NZS ISO 9001:2008 Quality Management Systems

AS/NZS ISO 14001:2004 Environmental Management Systems

The PDCA (plan–do–check–act) problem-solving leads to larger and more targeted change

Environment

Pex has established standards of operational practices, ensuring that no-matter the size of the project, t
